Open Ended Comments

List at least two things positive about this course:

Comments
The professor cares about us students achieving the objectives in the course. The professor also makes time for questions to be discussed and goes over homework to make sure we are learning the correct methods and using them correctly.
I learned things that I will use in graduate school He was flexible with due dates and student schedules
He never blamed the students for low test scores but instead said we will practice more. He was always very encouraging and made sure we understood.

List at least two things that would improve this course:

Comments
A better discuss into some of the topics especially the program R that is used. This is really the only concern for me, as it was a bit of a struggle to learn a program I had never used nor heard of for the course.
At times it was hard to understand the professor's handwriting His grading seemed to be a little unorganized (I would get a question ungraded but another student would have it graded, even if we had the same answers)
Having homework assignments available earlier, so we have more time to work on it.
